Company Information

SouthlandMD is a physician-owned and operated group that offers operational management and provider staffing. Our services include Emergency Medicine, Hospitalist Medicine, Behavioral Health, and Specialty Care & Outpatient Care programs. SouthlandMD was developed to bring high-quality medical services back to hospitals and communities that were being run by large, distant staffing companies in which there was no consistency in physician quality or patient care. SouthlandMD is striving to bring back the idea of the small-town family doctor with the added bonuses of the training and experience of some of the area's best medical practitioners. With an emphasis on quality, efficiency, and patient satisfaction, SouthlandMD has partnered with several hospitals and health care facilities to provide excellent patient care throughout Georgia, North Florida, South Alabama, and South Carolina.

SouthlandMD's network of providers bring years of experience and have a clear insight into the healthcare problems faced by hospitals and rural communities. Our principal physicians and management work closely with hospital and health system administration and all SouthlandMD providers to ensure goals and standards are met consistently. We are proud to be an EOE/AA employer.

Benefits and Compensation:

SouthlandMD is a dynamic physician- and clinician-led medical group that has been offering exceptional career opportunities for more than 15 years. With more than 450 affiliated clinicians.

About Coastal Harbor Behavioral Health

Our Mental Health & Substance Abuse Treatments for Children & Adolescents.

Coastal Behavioral Health offers an inpatient treatment option for adolescents and children struggling with ongoing behavioral, emotional and/or psychiatric problems. Our youth treatment facilities are designed specifically for youth ages 7 – 17 and can be the best treatment option for children whose behavioral issues have persisted despite acute or outpatient interventions. Our inpatient programs take place in highly structured, nurturing environments where patients can develop a sense of self-worth, gain a tool kit of new coping skills, take part in mental health counseling programs, and learn to take responsibility for their behavior.

We build our therapies and mental health counseling programs upon our evidence-based programming. Our areas of specialty include:

- Mood disorders, including depression and bipolar symptoms
- Self-injurious, disruptive, and aggressive behaviors
- Psychotic symptoms
- Difficulties with impulse control and emotional regulation
- Sexually reactive behaviors
- Trauma symptoms
- Autism Spectrum Disorders
- Co-occurring substance abuse disorders

Our emphasis on evidence-based practice using Cognitive Behavioral Therapy as our therapeutic model is what sets Coastal Harbor apart in its approach to treatment. Since many of our children and adolescents have experienced some form of trauma, our therapists are trained in providing trauma-focused therapy using Dialectical Behavior Therapy.

We strive to help each youth develop to his or her fullest potential and to provide them with the coping skills to help them to be successful in life.
